Somerville Block Level Parcel Value 2003-2013

This data file contains the total parcel, building, and land values for blocks in Somerville, as defined by the Assessor's office "Map-Block-Lot" designations. A map of Maps and Blocks can be found at http://www.somervillema.gov/departments/finance/assessing/maps.

Only those lots for which data is available in consistent form for all 11 years are included. This excludes lots converted to condos during the period, as such lots are split into multiple records in the Assessor's database. The number of lots included in the analysis for each Block is in the "# of Lots" column. Each cell in the data file represents the sum of the building, land, or parcel values in that Assessor Block. "SQFT" is the square footage of the lots in the block (not the buildings).

Somerville Building Permits 2004-2010 (Count and Construction Cost)

This data set includes all building permits issued between 2004 and 2010. Permits are coded to an assessor map and block. Maps of these boundaries can be found at http://www.somervillema.gov/departments/finance/assessing/maps.

Permits were assigned to a map and block based using ArcMap's (GIS software) geocoding capabilities and an address locator file developed by city staff for previous projects. Those permits with addresses that did not code automatically are grouped under "unassigned".

There are two tables: One includes the sum of the construction costs for the permitted projects in each map block for each year. The other provides the number of permits for each map block and year.
